I would like to discuss some things about human nature: (1-8)

- 1). I don't claim to be an expert, but I do know a lot about human nature due to my personal knowledge and backgrounds concerning people's thoughts, feelings and behaviors.
- 2). How you think, feel, behave and live are based on various causes, effects and conditions.
- 3). People tend to care less about someone or something until they're personally affected.
- 4). People tend to be their own worst enemies: (A-H)
 - A). They have ego issues
 - B). They have truth and reality difficulties
 - C). They're not aware, awake and/or enlightened
 - D). They may work hard, but not smart.
 - E). They're stupid even though they know better.
 - F). They lack proper logic, reason, common sense, critical thinking and perspective.
 - G). They're too subjective and not objective.
 - H). They often get distracted, lack discipline and so on.
- 5). The vast majority of people are predictable, easily controlled and not rational even though they may not realize it or want to admit. That said, I only use what I know for the good and educate cautiously. After all, with great power, comes great responsibility.

6). In positive and negative ways, people tend to be the byproducts of their environments: Your upbringing, the people you listen to and hang out with can affect your thoughts, feelings, behaviors, lifestyle, health, education, income, status, employment, safety, resources, opportunities, potential, etc.

7). People tend to be tribal, often lack individuality, have herd mentality and so on.

8). As for nature and nurture, I believe they're both important and should be considered. Genetically and inherently speaking, people do have various predispositions. However, one's exposure to certain things and their environment(s) does play a huge role in their positive or negative thoughts, feelings and behaviors not to mention their status, lifestyle, potential or the lack thereof.

Improve Your Life, Situation or Potential Now with John Simms

**Go To www.johnsimms.org and/or you can connect with me
via facebook at www.facebook.com/drjohnstl**

For serious inquiries, **I offer a FREE initial Consultation**, various payment options and unique opportunities, programs and services that could benefit you.

I also offer **FREE Speaking Engagements** in St. Charles County (Missouri) and surrounding areas on various topics. And I may be available for interviews.
